Here is a picture of the old Red Lion public house, Hazlemere which was divided into two cottages. And here is a photograph of what was known as the site of a Sunday School outing after the turn of the century. The pub eventually closed, after being 400 years old. Miss Joan Langford, who bought it, sent us the picture for Those were The Days no. 431, pointing out that additions were made to the right hand side of the building and that is now Rhodes Cottage. She lives in the other half, which is Montrose Cottage, when she bought it. She renamed it Tavern.
